Taglia/Arrotonda angoli Corner cutting/round making machine Machine à couper/arrondir les coins 切割和圆角机

- 🇮🇹 Macchina a motore per tagliare gli angoli (45°) dei materiali da rivestimento (carta, carta plastificata, tela, balacron, cartone, etc.) ed arrotondare gli angoli del cartone, presspan e simili
- 🇬🇧 *Motor driven machine to cut corners (45°) onto coating materials (paper, plastified paper, cloth, balacron, board, etc.) and to round corners on board, presspan and similar*
- 🇫🇷 Machine à moteur à couper les coins (45°) des matériaux de revêtement (papier, papier plastifié, toile, balacron, carton, etc.) et à arrondir les angles du carton, presspan et similaires
- 🇨🇳 切割/圆角切割—用电机驱动的机器在覆膜材料上（如纸、塑化纸、布、乙烯基纸，纸板等等）切割角度（45°），并在纸板、层压板和类似的材料上切割圆角。

- Greatest reliability and cut accuracy thanks to motorized functioning
- Cut slide stroke 60mm
- Height adjustable work platform (560mm x 1000mm), with square for precise material positioning
- Start cycle by pedal or double safety button
- Equipped with: nr. 01 cutting tool for 45°
- Overall dimensions: L= 950mm - W=1000mm
