

LIC 45

-  Inseritore automatico di classificatori a leva in custodie
-  Automatic insertion unit to place lever-arch files into slipcases
-  Dispositif automatique à insérer les classeurs à levier dans leurs boîtes
-  把压杆式文件夹放入封套的自动插入装置

Dynamic process

This insertion unit by PERONI is the ideal link between a lever arch binder line and slipcase forming machine (1,2, or 3 depending on customer's request). Every station is customised according to customer's number of slipcase production lines and space availability.
Introduction speed: 45 files/minute

* Production capacity of every machine depends on sizes, type of materials, glues and operator skill. Peroni's policy is one of continual product improvement and we can reserve the right to alter design and/or specifications without notice
