

PEN LOOP

-  Macchina semi-automatica per l'applicazione di 1 porta-penna in materiale elastico su agende e diari tramite colla hot-melt - Ciclo di taglio elastico, formazione asola e applicazione di 2 punti colla in automatico
-  *Half-automatic machine for applying 1 elastic pen loop onto agendas and diaries by using hot-melt glue – Elastic strip cutting, loop shaping and 2 glue drops spreading by fully automatic cycle*
-  Machine semi-automatique pour fixer 1 porte-stylo en matériel élastique sur des agendas et des livres par colle hot-melt - Cycle de découpe élastique, formation anneau et pose des 2 points colle en automatique
-  半自动笔套机，应用松紧带材料通过热熔胶安装在笔记本外壳 - 自动切削松紧带，形成笔套圆形后自动喷2次热熔胶。

Product width	min 150 mm	max 300 mm
Case thickness	min 1 mm	max 3,5 mm
Elastic widths	8 mm, 10 mm, 12 mm, 15 mm, 18 mm, 20 mm and 25 mm	
Electrical power required:	4 kW	
Pneumatic consumption:	100 NI/minute	
Loop diameter	8 mm up to max 10 mm	
Overall dimensions	1500 mm x 1000 mm x 2000 mm (h)	
Capacity	10 cycles/minute
